

Adarsh Jain

Adarshjain2703@gmail.com | +91 7389844273 | [LinkedIn](#) | [GitHub](#)

Summary

AI-focused Python developer with internship experience building intelligent backend systems and NLP-based solutions. Hands-on experience working with Large Language Models (LLMs), prompt engineering, and semantic search using tools like LangChain, FastAPI, and Scikit-learn. AWS certified with practical exposure to Generative AI workflows, model integration, and scalable API development for real-world applications.

Tech Stack

Languages: Python, Java, JavaScript, TypeScript, HTML5, CSS3

AI / Machine Learning: Machine Learning, Deep Learning, Natural Language Processing (NLP), Large Language Models (LLMs), Transformers, Embeddings, Retrieval Augmented Generation (RAG)

Libraries: Scikit-learn, Pandas, NumPy, TensorFlow, Matplotlib, OpenAI API

Frameworks: FastAPI, Flask, Django, Express.js, React.js, TailwindCSS

Databases & Tools: PostgreSQL, MySQL, Git, GitHub, Jupyter Notebook, VS Code, IntelliJ IDEA

Cloud: AWS, Google Cloud, Vertex AI, Prompt Engineering, Cloud Computing

Experience

Virtual Intern – Generative AI (Google Cloud) [\[Google Cloud Gen AI\]](#)

Nov 2025 – Jan 2026

SmartBridge & SmartInternz

- Learned Generative AI fundamentals including prompt engineering, model behavior, and responsible AI practices using Google Cloud.
- Completed hands-on labs with Google Cloud services such as Vertex AI, understanding model deployment, inference, and AI workflows.
- Applied prompt design techniques and cloud-based AI tools to solve guided real-world use cases in a virtual lab environment.

Software Development Intern Femira (by Meraji), Indore

Jan 2026 – Ongoing

Python, FastAPI, NLP, LLM, SQLModel, WordPress

- Assisted in application development by working on frontend features, debugging issues, testing modules, and supporting basic automation tasks.
- Worked with WordPress to configure and customize plugins, manage content workflows, and support feature enhancements based on business requirements.
- Gained hands-on exposure to backend data handling, API-based data flow, and collaborative SDLC practices using Git and team workflows.

Projects

Project Synapse – AI Powered Delivery Platform [\[GitHub\]](#) [\[Live\]](#) Aug 2025 – Oct 2025

Python, FastAPI, Scikit-learn, REST APIs, SQLModel, TailwindCSS, Leaflet.js

- Implemented machine learning pipeline including data preprocessing, feature engineering, model training, and performance evaluation using Python and Scikit-learn.
- Developed backend APIs using FastAPI and integrated REST APIs for order lifecycle handling and real-time delivery tracking.
- Built responsive frontend components using TailwindCSS ensuring optimized UI performance and usability across multiple user roles.

Unmanned Vehicle for Mine Exploration and Analysis Aug 2024 – Dec 2024

Python, Machine Learning, Computer Vision, LiDAR, Sensor Fusion, Data Analysis

- Developed AI-enabled autonomous unmanned vehicle integrating multi-sensor data (LiDAR, cameras, radar) for underground mine exploration.
- Built machine learning pipeline including preprocessing, feature extraction, and model validation for anomaly detection.
- Applied computer vision and sensor fusion techniques to improve environmental monitoring accuracy.

Achievements

- AI Fundamentals (ASCEND) [\[ACCENTURE\]](#)
- Introduction to Machine Learning(Kaggle) [\[Introduction To Machine Learning\]](#)
- Oracle OCI Generative AI Professional [\[ORACLE\]](#)
- AWS Certified Cloud Practitioner [\[AWS\]](#)
- AI Fundamentals (ASCEND) [\[ACCENTURE\]](#)

Leadership & Responsibilities

- **General Secretary – Edu4U Club, VIT Bhopal** [\[G.S\]](#) (Feb 2024 – May 2025)
Led and coordinated 50+ members while organizing multiple technical and academic events.
- **Student Coordinator – TCS Mass Recruitment Process** (Jan 2026)
Assisted in candidate coordination and gained exposure to interviewer expectations and hiring evaluation workflows.
- **Runner-Up – Industry Conclave Project Expo, VIT Bhopal**
Recognized for developing a Machine Learning based solution and presenting it among top projects.

Education

B.Tech in Computer Science and Engineering (Cloud Computing & Automation)

Vellore Institute of Technology

CGPA: 7.84

2022 – 2026
